INSPIRATION

VERONA

DAMAC HILLS 2

Verona is known for its **rich history** and is home to many stunning examples of **medieval and Renaissance architecture**.

Other notable architectural landmarks in Verona include the Basilica of San Zeno Maggiore, a Romanesque church with beautiful bronze doors; the Scaliger Tombs, Gothic funerary monuments; and Juliet's House, which is associated with **Shakespeare's Romeo and Juliet**.

Verona, with its rich history and beautiful landscapes, is home to various flowers that contribute to its charm. Here are some famous flowers you can find in Verona:

Red Valerian:

This perennial flower is commonly found in the region and is known for its clusters of vibrant red or pink flowers. It often grows along the city walls and adds a splash of color to the landscape.

Magnolia:

Verona is home to several magnolia trees, particularly in public parks and gardens. Magnolias are known for their large, fragrant flowers, often in shades of white or pink, which create a beautiful sight when in bloom.
