MODERN & CHIC ARCHITECTURE

LIVE LUXURIOUSLY

Promising a prestigious living AIZN aims for a harmonious future, a new beginning to all the people of its community. Based on past success.

AIZN is no stranger to providing a quality lifestyle. A lifestyle that guarantees a pure luxury lifestyle experience.

FRONT VIEW

A front view typically refers to the view of the front or forward-facing aspect of an object or structure. It could be a building, a car, a person, or anything else.

If you have a specific question or need information about a particular front view, please provide more details, and I'll do my best to assist you.

BACK VIEW

A back view is the perspective of the rear or backward-facing side of an object or structure. It provides information about what is visible from behind.

Just like the front view, a back view can refer to various things such as the back of a building, the rear of a vehicle, or the view of a person's back.

A bedroom is a private and personal space within a home or other living environment where people typically sleep and relax. It is a place for rest and privacy, and it often includes a bed, as well as various furnishings and decor to make it comfortable and aesthetically pleasing.

Bedrooms can vary in size and style, and they may have features such as closets, dressers, and other furniture for storage and convenience.

LIVING ROOM

A living room, also known as a lounge or sitting room, is a common and central space in a home or apartment designed for relaxation, socializing, and various leisure activities.

DINING ROOM

Dining room is a dedicated space in a home where people gather to eat meals. It is typically furnished with a dining table and chairs

as well as other furniture and decor to create a comfortable and inviting atmosphere for dining

Dining rooms can vary in size and style, from formal and traditional to modern and casual.

Bedrooms can be decorated to reflect the occupant's personal style and preferences, creating a comfortable and aesthetically pleasing environment for rest and relaxation.

KITCHEN

The kitchen is a room or space in a house or other building where food is prepared and cooked. It is typically equipped with various appliances, tools, and utensils to facilitate cooking and food preparation.

TV LOUNGE

A TV lounge is a designated area within a home, hotel, or other communal space where people gather to watch television. It is typically equipped with comfortable seating such as sofas, armchairs, and possibly coffee tables or side tables.

AMENITIES

Amenities are various facilities and conveniences that are typically provided to enhance the quality of life and comfort in various settings, such as residential areas, hotels, resorts, or public spaces

SWIMMING POOL

CAR PARKING

GARDEN

FLOOR PLANS

Floor plans are two-dimensional diagrams or drawings that provide a top-down view of a building or space. They are typically used in architecture, interior design, real estate, and construction to illustrate the layout and spatial arrangement of a structure. Here are some key aspects of floor plans
